### **DETAILED ACTION**

1. This action is responsive to the Applicant's Arguments filed on 02/26/2007.
2. Claims 1-23 are allowed.

### ***Response to Arguments***

3. Applicant's arguments, see Applicant's Remarks at pp. 7-10, filed on 02/26/2007 with respect to claims 1-23 have been fully considered and are persuasive. The rejection of claims 1-23 under 35 U.S.C 102 have been withdrawn.

### ***Allowable Subject Matter***

4. Claims 1-23 are allowed.
5. The following is an examiner's statement of reasons for allowance:

As applicant pointed out under Remarks/Arguments section, page 9, that the prior art of record fails to teach or suggest, at least, "...that the shell version of the trusted component is unconcerned whether a debugger is monitoring the first process, nor does Fuh disclose that the debugging version of the trusted component ensures that the debugger is not monitoring the second process and is unconcerned whether the debugger is monitoring the first process, whereby the debugger may monitor the application and the first process even as the application and first process are employing the RM content."

Independent claim 13 is a method claim of independent claim 1 and includes elements directed to substantially the same subject matter. Thus, all pending claims 1-23 are allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
